Institute of Migration

The Institute of Migration was founded in 1974, and has its headquarter in Turku. The tasks of the Institute of Migration are:

- to promote the collection, storage and documentation of research material relating to international and internal migration including immigrants and refugees
- to carry out and to promote migration research
- to publish research reports, books and articles on migration
- to develop co-operation between the universities and special organizations related to migration, both within Finland and abroad
